Battery Cover & Battery

Removing the Battery Cover

1. Hold the device firmly and locate the cover release latch.
2. Place your fingernail in the opening and remove the cover according to the arrow direction.

Installing the Battery

1. With the metallic contacts of the battery facing the metallic contacts in the battery slot, press the battery down until it locks into place.
2. Ensure the battery is inserted in the phone. To charge the battery, plug in the charger connector at your phone (USB interface) and then plug the other end into an AC power socket.

The battery symbol indicates the charging status. While charging, the charge indicators will scroll. When all the scroll bars are steady, the battery is fully charged. Disconnect the charger from the phone. Disconnect the charger from the AC power socket.

Note: If the battery is powerless, the battery icon will reappear after a few minutes of charging.

SIM Card & microSD

Installing the SIM Card

Make sure that the clipped corner of the SIM card is facing the correct direction and the metallic contacts are facing the correct direction. Slide the SIM card into the card slot until it stops.

Installing the microSD Memory Card

Slide microSD card into the SD card slot with the metallic pins facing downwards. Push the card until it locks into place.

Troubleshooting

Frequently Asked Questions	Cause and Solution
Fail to turn on	Press the Power Key for over 1 second. Check if the battery is properly connected. Please remove and install it again, retry to turn it on; Check if battery is appropriately charged.
Fail to connect network	Weak signal. Please try and move to a location with strong signal and try connecting to the network again; Please ensure that you are not beyond the network coverage of service providers; Please ensure you have a valid SIM card. Please contact your network provider for further information;
Poor quality of calling	Please check if the sound volume is tuned improperly In an area with poor receiving condition, example: basement, the signal might be weak. Try searching a location with stronger signal reception and call again. While using the mobile phone in the peak period of communication, like commute time, you may be unable to call because of line congestion.
SIM Card Error	Dirt on the metal surface of an SIM card. Use clean cloth to wipe the metal touch point on an SIM card. The SIM card is not installed. The SIM card is damaged. Please contact your network service provider.
Callers cannot contact you	Please check if the mobile phone is on and connected with the network. Please check if the Call barring or call divert is activated. Please check if the SIM card is valid.
Fail to set some functions	Wrong operation. The network provider does not support the function, or you have not applied for it.
